

# Kishan K

## AI/ML Software Engineer | Generative AI, Computer Vision, & Backend Systems

Phone: +91-6360333428 | Email: [kishan.k.naik.ai@gmail.com](mailto:kishan.k.naik.ai@gmail.com) | Portfolio: [kishan-k.pages.dev](https://kishan-k.pages.dev)  
LinkedIn: [linkedin.com/in/kishan-k-823049259](https://linkedin.com/in/kishan-k-823049259) | GitHub: [github.com/kishanaik5](https://github.com/kishanaik5)

### PROFESSIONAL EXPERIENCE

#### Software Engineer (AI/ML)

Silo Fortune Pvt Ltd

10/2025 – Present

Bengaluru

- Conceived and scaled production AI systems for agriculture and livestock, delivering crop diagnostics, satellite intelligence, weather driven insights, multilingual advisories, and fertility analysis.
- Deployed multimodal AI workflows combining Google Gemini, Computer Vision, geospatial data to automate disease detection, phenological tracking, multi language consulting for 80+ crop types in 12+ Indian languages.
- Engineered market intelligence systems serving **7,000+ agricultural markets**, integrating real time pricing, location aware search, and personalized farmer recommendations.
- Designed cloud native backend services using FastAPI, PostgreSQL, Redis, AWS, and asynchronous processing; reduced recurring LLM inference costs to near zero through multi level caching and workflow optimization.

#### Forward Deployed Engineer (Part-Time, Freelance)

Narvia (Luxury Interior & Exterior Design)

08/2026 – Present

Remote

- Embedded directly with a luxury interior/exterior design studio client to design, build, and ship [narviadesign.com](https://narviadesign.com) end-to-end as sole engineer, from information architecture through production deployment. (Reference: [narviadesigners@gmail.com](mailto:narviadesigners@gmail.com))

#### Applied ML Engineer (Part-Time, Contract)

Alpify Technologies LLP

09/2026 – Present

Bengaluru

- Contracted through Alpify to build a lead-quality ML pipeline for one of their clients, filtering fraudulent and anonymous leads sourced from Meta Ads and adding genuineness verification to a booking-slot flow that previously had no fraud or security layer. (Reference: [deepak@alpify.in](mailto:deepak@alpify.in))

#### AI and Automation Intern

Sumedha Design Systems Pvt. Ltd

02/2025 – 08/2025

Hyderabad

- Engineered a scalable data extraction pipeline using GCP Vision API and AWS S3 to process **10,000+** VLSI documents, orchestrating RAG based systems for synthesized MCQ generation and hybrid retrieval that improved learner engagement by **15%** and reduced latency by **50%**.

### TECHNICAL SKILLS

**GenAI:** Google Gemini, OpenAI, Version Prompting, MCP based AI Agents

**AI/ML:** Computer Vision, Deep Learning, Transformers, Vision Transformers (ViT), CNNs, PyTorch, TensorFlow

**LLM Engineering:** LangChain, LangGraph, LlamaIndex, FAISS, Rasa, NLP, Retrieval-Augmented Generation (RAG)

**MLOps & Cloud:** Docker, GitHub Actions, AWS (S3, RDS, SageMaker, ECS Fargate, SG), GCP (OCR, Vision API), Jenkins, Vercel

**Backend Engineering:** FastAPI, Django, Flask, Pydantic, SQLAlchemy, Alembic, AsyncIO, Node.js

**Programming:** Python, SQL, JavaScript

**Databases:** PostgreSQL, MongoDB, Redis

**APIs & Integrations:** AgroMonitoring API, Data.gov.in, WeatherAPI, Cashfree, Roboflow, Kaggle Datasets, Cloudflare

### KEY PROJECTS

for more projects: [kishan-k.pages.dev/#projects](https://kishan-k.pages.dev/#projects)

#### Kisaan Sampurna – AI-Powered Agricultural Advisory Platform

[Google Play Store](https://play.google.com/store/apps/details?id=com.kishanaii.kisaanaii)

- Orchestrated and scaled a production agricultural AI platform deployed on **Google Play**, providing vision based disease detection, real time commodity market intelligence spanning **7,000+ mandis**, weather aligned insights, satellite telemetry leveraging NDVI/EVI/NDWI indexes, growth-stage forecasting across **80+ crop varieties**, and systematized multi language advising in **12 Indian languages**. Powered by FastAPI and AWS ECS Fargate with Google Gemini workflows and multi tier Redis caching, driving recurring inference overhead down to near zero.
- Tech Skills:* FastAPI, Google Gemini, Computer Vision, PostgreSQL, AWS S3, AWS ECS Fargate, Docker, SQLAlchemy, AsyncIO, Jenkins, Redis, AgroMonitoring API

#### Sentinel – Agentic Research Copilot for Indian Equities

[GitHub](https://github.com/kishanaii/sentinel)

- Coded a multi agent AI research platform for **NSE/BSE listed companies** using LangGraph, RAG, MCP based tool orchestration. Implemented hybrid retrieval, reranking, observability, and evaluation pipelines. Currently developing QLoRA fine tuning workflows on **Qwen-2.5-7B** for grounded, citation aware financial research.
- Tech Skills:* LangGraph, LangChain, QLoRA, Qwen 2.5, RAG, FAISS, PostgreSQL, FastAPI, Langfuse, Docker, AWS

#### Gau Sampurna – AI-Powered Sperm Motility Analysis

[GitHub](https://github.com/kishanaii/gausampurna)

- Customized a computer vision pipeline for streamlined semen quality assessment using **YOLOv8** object detection and **DeepSORT** tracking. Integrated asynchronous video processing workflows with FastAPI and Celery to calculate motility metrics from microscopy videos and generate results within minutes.
- Tech Skills:* FastAPI, Celery, YOLOv8, DeepSORT, Computer Vision, AWS S3

#### NotifKit – Open-Source Notification Infrastructure

[notifkit.dev](https://notifkit.dev) | [GitHub](https://github.com/kishanaii/notifkit)

- Open-source contributor (one of 3) building self-hosted notification infrastructure — a single `notify()` call handling push, email, SMS, and webhook delivery with automatic fallback, retries, preferences, and durable multi-day workflows.
- Tech Skills:* Node.js, TypeScript, PostgreSQL, Redis, Redis Streams, REST API

### EDUCATION

#### B.E. in Artificial Intelligence and Machine Learning

Ramaiah Institute of Technology, Bengaluru

12/2021 – 07/2025

CGPA: **8.6 / 10**

### PUBLICATIONS

Performance Evaluation of Deep Learning Models for Predicting Alzheimer's Disease  
Enhancing Predictive Maintenance with SHAP and LIME

IEEE Bangalore, 2024

ICAI – ARSSS, 2025
